R Markdown Presentation & Plotly

Create a web page presentation using R Markdown that features a plot created with Plotly. Host your webpage on either GitHub Pages, RPubs, or NeoCities. Your webpage must contain the date that you created the document, and it must contain a plot created with Plotly. We would love to see you show off your creativity!

Using the R built-in dataset of "presidents" to plot the quarterly approval rating for the President of the United States from the first quarter of 1945 to the last quarter of 1974.
